Findings of the Continuation Inquiry

into Anti-Dumping Measures

Notice under subsection 269ZHG(1)(b) of the Customs Act 1901

The Commissioner of the Anti-Dumping Commission (the Commissioner) has completed an inquiry, which commenced on 9 March 2016, into whether the continuation of the anti-dumping measures in the form of a dumping duty notice applying to consumer pineapple exported to Australia from the Kingdom of Thailand (Thailand), with the exception of Thai Pineapple Canning Industry Corp Ltd (TPC), is justified.

The goods subject to measures (the goods) are:

Pineapple prepared or preserved in containers not exceeding one litre (consumer pineapple).

Recommendations, reasons for the recommendations, and material findings of fact and law in relation to the inquiry are contained in *Anti-Dumping Commission Report No. 333* (REP 333).

I, CRAIG LAUNDY, the Assistant Minister for Industry, Innovation and Science and the Parliamentary Secretary to the Minister for Industry, Innovation and Science,¹ have considered REP 333 and have decided to accept the recommendations and reasons for the recommendations, including all the material findings of facts and law therein and have decided that the anti-dumping measures applying to consumer pineapple exported to Australia from Thailand should continue from 17 October 2016.

Under subsection 269ZHG(1)(b) of the *Customs Act 1901* (the Act), I declare that I have decided to secure the continuation of the anti-dumping measures currently applying to consumer pineapple exported to Australia from Thailand.

Pursuant to subsection 269ZHG(4)(a)(iii) of the Act, I determine that the dumping duty notice in relation to the goods from Thailand continue in force after 17 October 2016, but

that after this day the notice has effect as if different specified variable factors had been fixed in relation to all exporters generally, (with the exception of TPC).

In accordance with subsection 8(5BB) of the *Customs Tariff (Anti-Dumping) Act 1975*, and the *Customs Tariff (Anti-Dumping) Regulation 2013* (the Regulation), the duty that has been determined will continue to be an amount worked out in accordance with the combination of fixed and variable duty method pursuant to subsections 5(2) and 5(3) of the Regulation, as detailed in the table below.

Particulars of the dumping margins established for all exporters (with the exception of TPC), and the interim dumping duty rate is set out in the following table.

Country	Exporter/country	Dumping margin and interim dumping duty rate	Duty Method
Thailand	All exporters (except TPC)	9.2%	combination of fixed and variable duty method

Interested parties may seek a review of this decision by lodging an application with the Anti-Dumping Review Panel (www.adreviewpanel.gov.au), in accordance with the requirements in Division 9 of Part XVB of the Act, within 30 days of the publication of this notice.

REP 333 has been placed on the public record, which may be examined at the Anti-Dumping Commission Office by contacting the case manager on the details provided below. Alternatively, the public record is available at www.adcommission.gov.au.

The interim dumping duty liability is to be calculated as follows:

The interim dumping duty rate per kilogram and the ascertained export price is considered confidential.
